Who are **we** ?

Azienda Solutions **Digital Service** Company specializing in the **development of innovative** technological products with strong social benefits and for **economic operators and project leaders**.

We operate in several countries in **Africa**, **Europe** and **America** and we devote ourselves to supporting companies in the **planning and management of the different layers** of their organizations thanks to digital tools.

Our vision

Our vision is to facilitate the evolution of the lifestyles and functioning of companies and individuals thanks to our innovative products. We offer a wide range of **tailor-made digital services**, of unequaled quality and very high added value to companies, entrepreneurs and even individuals. By 2025 we want to have **20,000 customers** and users of our consumer products. Among these customers, we will have more than **1000** companies whose turnover will have increased by at least 15% thanks to our digital solutions. We also want to achieve a **90%** customer satisfaction and retention rate.

Our mission

Our mission is to offer digital solutions that are themselves continuously improved and allow continuous business development for economic operators, and to the quality of life of the French populations and Mondaines.
